

Modern science seems to favor the view that strange and weird forms of animal existence must have flourished in geological ages and esoteric doctrine seems to hold that the combination of animal and human forms was a common phenomenon in the days of the Third Root Race of men [The Cyclops and the Giants] and according to the same doctrine of the Mystics, the Third Root Race inhabited the vast submerged southern continent conveniently designated by scientists as Lemuria [the abode of the

Monkey race].

"Lemuria is an ancient continent now sunk beneath the waters of the Indian Ocean which, lying to the South of Asia of today stretched on the one hand eastwards to Upper India and Sunda Island, and on the westwards as far as Madagascar and Africa". From Ernest Hackel's "Pedigree of Man" Aveling's translation pp.80-81

"The sinking and transformation of Lemuria began nearly at the Arctic circle [Norway] and the Third race ended its career in Lanka, or rather on what became Lanka with the Atlanteans. The small remnant now known as Ceylon is the Northern highland or ancient Lanka, while the enormous Island of that name was in the Lemurian period, the gigantic continent already described [see Madame Blavatsky's "The secret Doctrine, Vol.11,p.347]
