Singapore - Malaysia workshop - Dr.M.Madeswaran

Dr.Pradheep Kumar came to Coimbatore on December 2nd, 2014 from Singapore after his sessions about Uni5 education and Vedic science said that I have to visit Singapore and Malaysia in short time for conducting Uni5 early childhood concepts as a workshop to Indian community.

I just said yes and through a humble gentleman called Thanigai Gopal from Singapore the process started.

Thanigai and his friends - Mr.AnandhaMani, Mr.Shanmuga Priyan, Mr.Anand, Dr.Muniandi and Mr.VelMurugan made a perfect plan for the trip to both nations.

We thank Mr.Prakasam - Thanigai's brother in Chennai took proper procedures in many official matters.

Mr.Anandha mani from Singapore arranged for our visa. Dr.Muniandi and his team in Malaysia arranged for a day workshop in their nation.

We thank our human resource manager Mr.Jeyaraman for being in full support to leave us in airport and be with us in many arrangements.

Sharing by a Malaysian father

We landed in Singapore on December 26th.

We admire and thank the compassion, dedication and perfection of above said persons in abroad for their hospitality and arrangements.

Safety, food, travel, resting, sight-seeing in rest time, talks, communications and many other aspects were well planned by this crew.

In Malayisa on December 27th, Mr.Gopal - well known Rotarian organized the session for people in a big hall and in Singapore and 28 members participated.

Parents, teachers from preschools, school counselors, elders, few students attended the session.

In Singapore on 28th the same session was conducted in Arya Samajam hall and 30 people participated. [Parents with very young children, pregnant mothers, couples planning for child, senior citizens attended the session]

On 29th we gave a 3 hour talk about the concept of Dharma through Dharma Sastha in famous Dhandayudhapani temple - one of the oldest temples in Singapore. Many people who came for above 2 sessions followed here too.

On 30th we gave a 3 hours talk about Alwars, their work, SreeAndal and rituals observed in temples based on energy concept.

On 31st Mr.Shanmuga Priyan and few others requested for giving a talk about Chidhambaram temple in Uni5 view. This happened in Mr.Thanigai's house.

It was very nice to hear the same pattern of questions about children and parenting everywhere.

People are in need to direct towards a good, understanding of energy concept and Vedic rituals.

Those who attended committed with focus, questioned, took notes and shared many things immediately with their circle through cell phones.

It is no doubt that these friends will import more wisdom and knowledge from India through many scholars in future for the betterment in awareness for their people in 2 nations.

We thank Dr.Jeyachandra Rajji for focusing and guiding us in making the trip a safe and successful one.

Foundation has allowed us to purchase many things for Sendurai and Coimbatore schools to expose the culture of eastern nations especially China.

We left the country back to our home on January 1st, 2015 by 5.15 A.M
