Minutes of Priya's talk:

- * The school must be part of the child's family.
- * School must provide learning as "way of life with bliss of perfection"
- * Everyone is learning to evolve towards perfection and awareness.
- * We must be aware about the objective of the work which we have chosen.
- * Parenting must be part of your center along with child education.
- * Make the education to get self-related with the child.
- * We must not see a work as a work. It must be enjoyed with its process. This is being insisted in Montessori education.
- * Do not lose the spirit and temper in your work.
- * We must be easily approachable and informative to the public.
- * Do not postponed the time to implement new ideas.
- * School is a noble place and teachers are noble in work. They must have a good compassion to work with students of various age groups.
- * Very young children grasp everything from their living environment. So it is better to give a well prepared environment with we as the role models.
- * Teaching cannot be chosen for money making. It is a service.
- * Show your good emotions in body and mind level and make the child to work with intelligence. Then prepare the child to be aware and finally he has to serve.
- * The school must have a good and healthy relation with parents and society.
- * The school must update the various activities and make parents and society to know about them.
- * Teachers in lower age groups have the responsibility to give parental care.
- * Freedom to interact and open mindedness is very important.
- * Observe every action of the child and study the evolution of the child.

- * Do not be partial in any way to anyone.
- * Assist the child to evolve in BMIAC levels.
- * Accept the child as he is.
- * Encourage the talents and creativity of co-workers.
- * Feel good and responsible about what you do.
- * Try to challenge your own strength.
- * WE must be prepared to do all work without ego.
- * Interaction and relation with every individual will be healthy if you follow BMIAC levels.
- * Good teachers are the seeds for good citizens.
- * As Gandhiji says we must be the change for the external change which we wish.
- * Do not do an action which you do not like to others also.

After this students interacted with her and shared many questions and views about education and schooling.
